DETAILED ACTION

Continued Examination Under 37 CFR 1.114

- 1.1 A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 9/9/2010 has been entered.

Information Disclosure Statement

- 2.1 The information disclosure statement (IDS) submitted on 9/9/2010 was filed after the mailing date of the Notice of Allowance on 6/9/2010. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Allowable Subject Matter

- 3.1 The following is an examiner's statement of reasons for allowance:
Claims 21-22, 24-31, 33-43 are allowed for the following reason/s:
The instant application is deemed to be directed towards a non-obvious improvement over the invention patented in U.S. Patent No. 6379017 to Nakabayashi or U.S. Patent No. 5897184 to Eichenlaub, or U.S. Patent No. 6474827 to Shinohara, or U.S. Patent No. 7265800 to Jagt or U.S. Patent No. 6996296 to Bastiaansen.

- 3.2 Claim 21 is allowed because the prior art of record, taken alone or in combination, fails to disclose or render obvious a three dimensional display device comprising a backlight, the backlight comprising a planar light guide through which light is guided transversely by internal reflection, wherein regions of the light guide are configured to direct light propagating within the light guide by internal reflection, out of a face of the light guide without passing through the light guide after being directed by the regions so as to form a plurality of line light sources, the regions comprising grooves filled with a material having a higher refractive index than the light guide, wherein the material which fills the grooves is formed as a layer extending across an upper surface of the light guide, the thickness of the layer being less than a period of the grooves.

While Nakabayashi discloses material that is used to fill the grooves, the material is of a lower refractive index than the material comprising the light guides. Further, Nakabayashi is silent with regards to the depth of the groove filling material. Further, while Jagt discloses a layer of material filling the grooves, it is also silent as to the depth of the material. Bastiaansen discloses that such dimensions as the periodicity/pitch of grooves and the depth can affect the polarization of the transmitted light, but is also silent as to the depth of the material filling the grooves.

- 3.3 Claims 22, 24-31, 33-43 depend either directly or indirectly on Claim 21 and are thus also allowed.
- 3.4 Any inquiry concerning this communication or earlier communications from the examiner should be directed to Guy G. Anderson whose telephone number is 571.272.8045. The examiner can normally be reached on Tuesday-Saturday 1400-2200.

- 3.5 If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Robinson can be reached on 571.272.2319. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
- 3.6 Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
